

Search Engine Optimization

Search Engine Optimization or SEO is marketing a Website on Search Engines.

Facts:

- 99% of all Internet users use Search Engines to look for something on the Internet
- Every SEARCH RESULT yields THOUSANDS to MILLIONS of listings
- 90% of searchers only go through the first 2 pages of results or Top 20 listings

Therefore, to get more customers to your Website, you must be within the Top 20 results of every 'key phrase' related to your business.

Our SEO package will guarantee you top 20 positions ensuring that all those internet users find you on the first page for your key phrases.

Top 20 Positions Guaranteed in Major Search Engines

The process

1. Choose how many key phrases you want

The more key phrases you choose the more 'coverage' you will have on the search engines.

2. Sign up

Sign up for the SEO service to begin the process.

3. Choose your key phrases

We will provide a key phrase analysis that shows you the type and frequency of searches performed for your type of industry/business/product/service.

From this list, you can choose the specific key phrases to fill your quota.

4. Get more traffic!

You will then receive a status report about your current ranking on search engines for your chosen key phrases.

Every month you will receive a similar report showing your improved results and rankings.
